

SELECTIVE RE-ENLISTMENT BONUSES

The amount of an eligible sailor's Selective Re-enlistment Bonus is based on a formula: Each selected skill is assigned a multiple, which is then factored in with their basic pay and the number of months for which they're re-enlisting, up to the payout maximum for which their skill qualifies. All increased SRB levels take effect immediately; decreased levels take effect in one month. Multiples with a minus symbol (-) decreased from the last SRB update, including those reduced to zero; those with a plus sign (+) increased. Re-enlistment Zone A is sailors with up to six years of service; Zone B, six to 10 years; Zone C, 10 to 14 years.
